### Class Supply List

#### 405 Classy Cardigan Connie Sawdy

**Machine : Piecing & Appliqué**  
**Confident Beginner**

This classy cardigan jacket is fingertip length, slenderizing in style with a flattering fit. Due to the unique construction, the jacket is also reversible. The seams are exposed to the outside, finished with bias (quilt binding style) creating a totally completed jacket on the inside. Endless creative possibilities can be explored on both the front and back yokes while applying seminole piecing and many decorative techniques to add texture and design to other elements of this "work of art" jacket. Start with a fat quarter of one of your favorite fabrics and build your jacket's color palette from there.
