110 How to design your own Attic Window Quilt David Lee

Machine : Piecing
Confident Beginner

Windows are an everyday part of life – there are real windows in our homes and workplaces or maybe symbolic ones to our souls and memories. With this easy technique your inspiration can blossom. Using only simple squares or rectangles you can create a wall hanging that captures your special view of flowers, landscape, family ... really anything. With today's fabrics whimsical or serene, animal or flower, photo or embroidery, you name it, we can frame it, for a one of kind memory. You provide the inspiration and we take care of the process.

A fee of \$10 for the required pattern will be paid directly to the teacher.

- 1 yd. light window sill/sash fabric
- 1 yd. window lattice (or block sashing) fabric in a dark or medium value; this will also be your first border around the blocks
- 1 yd. outer border fabric (this may be your darkest sill/sash or you may repeat your lattice fabric after a narrow insert of one of the sill/sash fabrics)

Note: make sure that there is a strong value difference between the sill, sash, and lattice fabrics!
